SELECTMEN'S REPORT

Through inventory April 1, 1959, we found that there were 775 persons liable to a poll tax, 241 were exempted and 85 were over 70 years old, for a total of 1,101 persons over 21 years. Exempted were 232 veterans, 8 widows of veterans and one blind. Of the 85 over 70 years old, 47 were women and 38 men.

On T.R.A. Granite street was finished, being road mixed by the State crew. Granite St. Extension from Anderson's corner to Edward Huggin's was widened and trees cut off, the work also being done by the State crew.

Reynold's Avenue was torn up, regraded and graveled by Plourde Sand and Gravel Co., they being the lowest bidder. The road mixing was done by the State crew.

On Ray's Court, the money appropriated was left over to 1960. Work was not done on account of the street not being gravelled in time, as it was supposed to be when the street was accepted, therefore could not be road mixed.

The drainage ditch below Ferry Street to Canal Street was made. Two catch basins - one on Whitten Street and the other on Theodore Street were also made.

Mr. Armand Dupont resigned as Tax Collector on doctor's orders. We have appointed Armand Poirier of Al's Avenue, who has done a very good job.

Mr. Eugene Cantara resigned as Trustee of Trust funds. We have been unable to find anyone to replace him so far.

Mr. Joseph Forcier also has resigned as Health Officer. Up to press time we have not found anyone to replace him.

As to the Main Street bridge, we have contacted the State Highway Department, showing them what we wanted to be done. We have been waiting for a set of plans from them.

The Library was painted, windows repaired, and front steps also repaired.

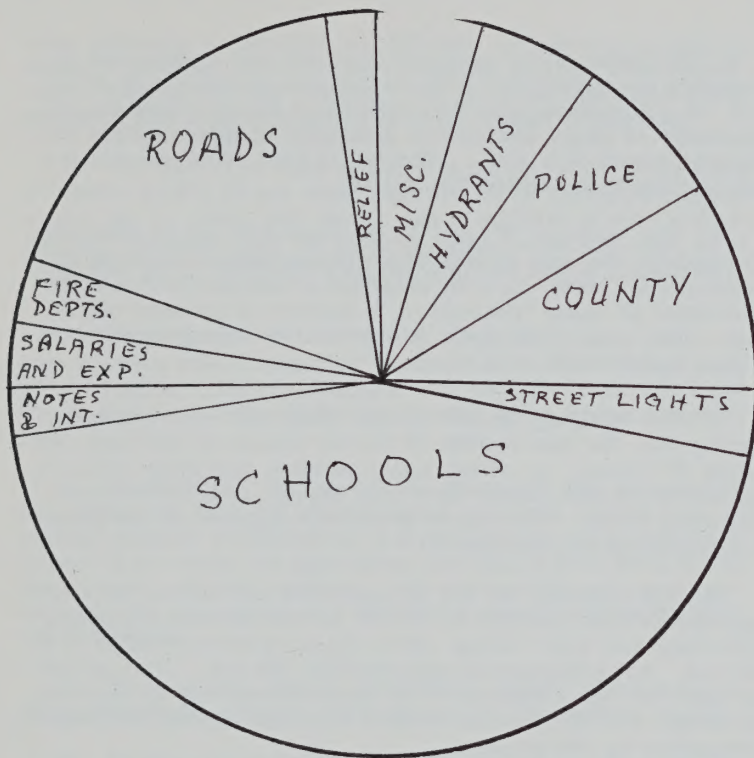

RESPECTFULLY SUBMITTED

Gerald Gagne

Gabriel Daneault

# *History of Allenstown, N. H.*

CONTINUATION FROM 1958

As the controversy between the proprietors of Suncook and the proprietors of Bow, in relation to the ownership of their lands had much to do with the settlement of the township and history of Allenstown, which is in part made up of territory claimed by both, the following is an explanation of the origin and progress of these conflicting claims.

The controversy grew out of a dispute between the provinces of Massachusetts and New Hampshire as to the boundary line between them. Both claimed the land in question. In 1725-26 Massachusetts granted the township of Pennycook, afterwards Rumford, now Concord. Soon after the grant was made in May 1726 the proprietors or grantees, accompanied by a committee of the General Court of Mass. proceeded to run the boundary of the township and divide a portion of the same into lots for settlement. While they were so engaged, N.H. sent a committee to remonstrate and notify them that N.H. owned or claimed the land and intended to hold it. Notwithstanding this notice, the Mass. committee with the grantees continued the work and the settlement was commenced the same year. During the following March 1727, New Hampshire granted to 100 or more persons residing mostly in Stratham and adjoining towns, the township of Bow, containing 81 square miles, or nine miles square which included the greater part of Pennycook granted by Mass. the year before.

On August 6, 1728, Massachusetts granted the township of Suncook, of which Allenstown was a part, adjoining Pennycook, paying no regard to Bow, which N.H. had granted in 1727. By referring to map #1 in the 1958 town report, the relation, size, shape and position of the township will be seen and that Bow included the larger part of both Pennycook and Suncook. On November 1, 1728, less than 3 months after the grant was made, the grantees of Suncook finished running the bounds of their township, while the grantees of Bow did not complete theirs till Feb. 1729. In Oct. 1730, the grantees or proprietors of Suncook divided a portion of their township, principally on the easterly side of the Merrimack river into lots. The settlement of the town was probably

begun the next year for the proprietors of Suncook drew for their lots on Dec. 9, 1730.

The proprietors of Bow notwithstanding, proceeded in 1732 to lay out into lots the same and others, adjoining territory, paying no regard to the division already made by the Suncook proprietors; the lots lapping and overlapping each other. Both parties believed their titles were valid, and that their mother government would support their claim. Neither provinces were disposed to yield. An appeal was made to the King, and a commission was agreed upon, consisting of councillors from the provinces of Nova Scotia, New York, New Jersey and Rhode Island, with power to establish the line between the province of N.H. and Mass.

On August 1, 1737, the court, as the commissioners styled themselves, fixed the northerly or easterly boundary line of N. H. as follows: the dividing line shall pass through the mouth of Pascataqua harbor and up the middle of the river Newichwasnock, (a part of which is now Salmon Falls), and through the middle of the same to the fartherest head thereof, and thence north two degrees westerly until one hundred and twenty miles be finished from the mouth of Pascataqua harbor aforesaid or until it meets with his Majesty's government. With regard to the southerly line of N.H. the commissioners described two lines, a choice between which was left dependent upon the decision of a question of fact, which they said was in doubt, and which they referred to his most sacred Majesty, in his privy council, to be determined according to his royal will and pleasure. The question came before the King and Council March 1740. That part of the Commissioners report establishing the northerly line was affirmed, while that part which related to the southerly line was entirely set aside and the southerly line of N.H. was determined as follows: That the northerly boundary of the province of Mass. be a similar line, pursuing the course of the Merrimack River, at 3 miles distance on the north side thereof, beginning at the Atlantic Ocean and ending at a point due north of Pawtucket falls, and a straight line drawn from thence west, till it meets with his Majesty's other government. By this decision N.H. acquired a strip of land fourteen miles wide and about fifty miles longer than she had claimed.

After this discussion by the King and his Council there was no further question within which provinces the township of Suncook and Bow were.

After many law suits and hearings it was finally brought to trial in England. The King and Council, after hearing the case in the report, gave the circumstances of the grant of Rumford and the settlement thereof; and also the same in the case of Suncook, after which is the following: that notwithstanding his Majesty has been pleased at the time of issuing the said commission to fix said boundary, to declare the same was not to effect private property, yet certain persons in N.H., desirous to make the labors of others an advantage to themselves, and to possess themselves of the town of Pennycook, otherwise Rumford, and Suncook as now improved by the industry of the applicants and the said settlers thereof, whom they seek to dispoil of all their labors, etc. This short extract from the report of the King and Council was sufficient to cause the Bow proprietors to abandon their claim upon the Suncook lands.

#### ANNALS 1722 - 1750

Allenstown was originally granted May 11, 1722, to the children of Governor Samuel Allen and to their heirs. It was described as follows: A tract of land four miles square adjoining to Chester (now Hooksett), side line and Nottingham head line.

The early settlements in Allenstown were made upon land purchased of the Masonian proprietors, and divided the territory which they called Allen's Town.

In 1729, before Suncook was laid out into lots, there was a ferryboat put into the Suncook River to accommodate travel. The ferryboat though not a large one, having cost only five pounds, undoubtedly served to carry the community and company over the river Suncook till 1735 when a bridge was probably built.

In 1735 or soon after, a bridge was built across the Suncook River lower down stream, a little west from the westerly end of the Webster Mill. A bridge was supported till after a bridge was built in the winter of 1802-3, where the present Factory Bridge, so called, now stands. There was evidence that there was a bridge across the Suncook River, somewhere near or north of the China Mill. It had been removed by some means before 1760. By whom, or when it was built, none was able to say.

In 1741, the first road was laid out through what is now the Suncook Village, for on February 26, 1741, John Coffrin gave the proprietors of Suncook a deed of land for a road, through the village across the bridge.

The first deed from John Tufton Mason may be found in the Rockingham County Records as being given July 30, 1746.

On May 20, 1747, Mr. Robert Buntin of Allenstown, and his little son Andrew, ten years old, accompanied by a Mr. James Carr of Pembroke, had crossed to the west bank of the Merrimack River, opposite the mouth of the Suncook River in Bow near where the late Benjamin A. Noyes lived. While at work, they were surprised by Indians. Mr. Carr in an endeavor to escape, was shot and killed. The other two, not offering resistance, were hastened unharmed into captivity. After traversing the wilderness to Canada they were sold to a French trader in Montreal. After remaining there about eleven months, they escaped and reached Allenstown in safety. The son, Andrew, born in Allenstown in 1737, enlisted in the army when the Revolutionary War broke out, and died in the defense of his country at White Plains in October, 1776. He had married Janet Otterson. They had seven children, Andrew Jr., Elizabeth, James, Sarah, Robert, Marie and Martha.

Captain Robert Buntin, fifth child of Andrew Buntin, was also a prominent citizen of Allenstown, serving the town as Selectman and Auditor. He was born December 1, 1767; married Betsy Hutchinson, and their first child Mehitabel was born June 15, 1791.

Among the first settlers in Allenstown that can be found, were John Wolcutt, Andrew Smith, Daniel Evans, Robert Buntin, who with others were in town previous to 1748.

## PREVENTION IS EVERYBODY'S BUSINESS

The year 1959 was fortunate from a forest fire standpoint. New Hampshire had the best record in the nation. Fewer acres were burned, suppression costs were substantially reduced and damage to woodlands held to a minimum. The record resulted from a combination of favorable weather conditions, an alert warden service and a cooperating public.

Yet, despite all this, there still persists a disturbing note

58%, or 6 out of every 10 fires in 1959 were caused by careless smokers and debris burners.

10%, or 1 out of every 9 fires was caused by children.

Careless, indifferent, thoughtless and independent minded individuals and failure of parents to properly supervise children and keep matches out of their reach, annually cause these unnecessary fires which cost large sums to extinguish and cause extensive damage. The elimination of these three causes of fires would radically change this picture. The rules are simple -

1. Before burning, secure a permit from your local forest fire warden - the law requires it.
2. Be sure to properly supervise your burning.
3. Make certain your fire is DEAD OUT before leaving it.
4. Don't throw lighted matches, cigars and cigarettes from moving vehicles - use your ash tray.
5. Don't burn at home - Use your town dump and save yourself much possible difficulty, both personal and financial.

Number of local fires 6  
Number of acres burned 77  
Number of permits issued 33

## ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

February 1, 1960

To the School Board of Allentown:

It is a privilege for me to submit my thirteenth annual report concerning the Allentown school.

The school added its fourth teacher last fall thus utilizing every room in the building. This was necessary because of the increase at the levels of Grades 3-4-5. Unless our estimates are incorrect, we should continue the same way another year grouping the children so that each teacher will have two grades.

Our transportation problem seems to have been solved, at least for the next few years. May I say that this has surely been a step forward in the district especially when transportation costs are increasing all around us.

Again we come to the budget. Here also, we must face the same increases that we have faced in the past. The largest items now are teachers' salaries and tuition - \$16,850 and \$17,955 respectively. These two items together form 72% of the entire budget leaving 28% for all other items. We have no control over the tuition because this is set by the schools to which we send our children and we have very little control of teachers' salaries if we are still to try to get capable and competent teachers for our children.

According to the census reports, the school will not become any smaller. We can probably handle from 10 to 15 more children in the present rooms by crowding a bit, but at the end of the next 5 to 8 years the school will not be large enough to take care of them. Both Hooksett and Pembroke are putting the machinery in motion to develop another phase of American education, the Junior High School, and should such a project become a reality, then Allentown will be right in the middle of the plan. This could be one of the most important steps to be taken in this part of the state.

It might be interesting and rather surprising to know that these three towns of Allentown, Hooksett, and Pembroke will spend in tuition for next year nearly \$150,000. What do you estimate it will probably be in five years? Really no one can guess because we must know the number of children and the cost of tuition at that time. We do know that tuition in Concord for 1960-61 will be \$415, in Pembroke Academy \$395, in Manchester over \$400 and with a state average of \$399. Since this situation is not peculiar to us alone, we can only assume that similar costs will show all over the state as well as the nation.

For a moment, let us look at the private schools, especially in this vicinity. The time is not too far away when construction of some kind must be made to house the ever-increasing growth of school enrollments. If the public school authorities make an effort to support and solve this problem, then it will stand to reason that a great many private school children will avail themselves of the opportunity to become public school students.

Both Hooksett and Pembroke are asking their districts to set aside a small sum in order to study the situation in connection with buildings, land, transportation, legal fees, and other necessary expenses in order to solve this problem. It is hoped that Allentown will consider such a similar responsibility and join forces with Hooksett and Pembroke.

May I again thank the Board for its help and courage in facing the school problems of the community. It has been a pleasure to work with and associate with you during the past twelve years. May you still have the vision to meet the ever-increasing problems which are inevitable in a democratic country.

Respectfully submitted,

MURRAY H. WATSON,  
Superintendent of Schools
